

Title

Insight to Advocacy: Funnel Week Legislative Update 2024

Course Description:

The Iowa Legislature utilizes a unique procedural mechanism to promote efficiency and weed out bills lacking sufficient support. The “funnel” refers to the process and deadline that requires bills in either chamber to receive a vote of approval from a full committee to stay alive. Bills that fail to receive a majority vote from a committee at this point are likely dead for the session. Matt Eide and Kate Walton of Eide-Walton Lobbying and Government Relations will present on this process—including defining and describing its various facets, political implications associated with the process on pharmacy issues, and the current landscape of pharmacy legislation following the first funnel week and in advance of the second.
