Learn, Connect & Be Inspired with Your Colleagues from Across the Midwest!

FEBRUARY 7-9, 2020
HILTON DES MOINES DOWNTOWN

Register today at MidwestPharmacyExpo.com
The Midwest Pharmacy Expo brings together pharmacists, pharmacy technicians and student pharmacists from across the Midwest for the region’s premier live continuing pharmacy education event.

16.5 hrs of CPE for Pharmacists & 10 hrs of CPE for Technicians

- Clinically Intensive Workshops (Friday) featuring high-level clinical programming
- Keynote from Ryan Jenkins on leading and working within multi-generational teams
- 4 tracks including relevant programming for all practices:
  - Innovative Practice
  - Challenging Cases
  - Nutrition/Wellness
  - Professional Roles and Skills
- Sunday Favorites:
  - New Drugs with Joe Strain
  - Law: Drug Shortages with Erin Fox
  - Gamechangers with Geoff Wall

Build Connections

Connect with pharmacists and pharmacy technicians from across 9 Midwestern states, plus hear from experts from across the country!
AGENDA AT-A-GLANCE

Friday, February 7, 2020
Clinically Intensive Workshops

6.5 hrs CPE for Pharmacists

7:30 am Registration
8:30 am Welcome
8:45 am Chronic Care Management: Focus on Diabetes
10:45 am -Break-
11:00 am Medication Misconceptions I
12:15 pm Lunch & Networking (lunch provided)
1:15 pm Chronic Care Management: Focus on Anticoagulation
3:15 pm -Break-
3:45 pm Medication Misconceptions II
5:00 pm Wrap-up and Adjourn

Saturday, February 8, 2020
Midwest Pharmacy Expo

6.25 hrs CPE for Pharmacists & Pharmacy Technicians

6:30 am Registration Opens
7:00 am Industry Symposium Breakfasts:
   • Advanced Technician Panel
     (Pharmacy Technicians only)
   • Invokana-The First Therapy in 20 Years to Treat Diabetic Nephropathy in Patients with T2D
     (Open to all)
8:15 am Welcome
8:30 am Keynote: "Lead & Work Across Generations: Strategies to Connect and Engage a Multi-Generational Team" by Ryan Jenkins T
9:30 am -Break-
9:45 am SESSION 1
   1. Drug Allergy Evaluation
   2. Case in Point: Critical Care Medicine
   4. You²: Being Intentional with Your Development T
10:45 am -Break-
11:00 am SESSION 2
   1. Technician Product Verification: A Hands-on Exercise in Continuous Quality Improvement T
   2. Okay, now what? Challenges in Internal Medicine
   3. Recommending Supplements: Yes or No? T
   4. Philosophy of Practice: Laying the Foundation for What We Do T
12:00 pm Lunch and Exhibit Hall

SESSION 3
1. Unique Billing Opportunities for Your Practice
2. Case Closed: Migraine Treatment Updates
3. What’s New in Nutrition? The Impact of Diet Fads and Label Changes on Patient Counseling T
4. Rural Pharmacy Practice: Partnering to Provide Interprofessional Care T

SESSION 4
1. HIV Pre-exposure Prophylaxis: An Overview
2. Geriatric Cases: Clinical Application of the 2019 Beers Criteria
3. Self-Care=Healthcare: The Most Important Formula You Will Ever Learn T
4. How Teamwork Impacts Joy in Work T

SESSION 5
1. Pharmacist to Pharmacist Collaboration
2. On the Case: Updates in Respiratory Medicine
3. THC, CBD and Now Hemp Oil: Do they work? Are they safe? What’s available legally? T

5:30 pm Adjourn
5:45 pm Political Leadership Reception**

Sunday, February 9, 2020
Midwest Pharmacy Expo

4.0 hrs CPE for Pharmacists & Pharmacy Technicians

6:30 am Registration Opens
6:45 am Industry Symposium Breakfasts
8:00 am New Drug Update T
9:30 am -Break-
9:45 am Drug Shortages: Navigating the Challenge T
10:45 am -Break-
11:00 am Gamechangers in Pharmacy T
12:30 pm Adjourn

Tracks: 1. Innovative Practice
         2. Challenging Cases
         3. Nutrition/Wellness
         4. Professional Roles and Skills

CE accredited sessions in bold
T - Accredited for both pharmacists & pharmacy technicians
** - Additional ticket purchase required
This course will provide a clinically-intensive review in the area of diabetes management. Hear the latest on how these agents compare in terms of cardiovascular risks and benefits as well as what to recommend for patients with chronic kidney disease. Discover tips on how to improve adherence to therapy for patients in your practice.

**Emily Beckett, PharmD, BCPS**
Clinical Ambulatory Pharmacist
Broadlawns Family Medicine Residency Program
Des Moines, IA

**Emily Knezevich, PharmD, BCPS, CDE, FCCP**
Associate Professor/Clinical Pharmacist
Creighton University School of Pharmacy & Health Professions
 Omaha, NE

**Jamie Pitlick, PharmD, BCPS, BC-ADM**
Associate Professor of Pharmacy Practice
Drake University College of Pharmacy and Health Sciences
Des Moines, IA

---

**Joseph Berendse, PharmD, BCPS**
Assistant Professor of Pharmacy Practice
Rapid City, SD

**Chrystian Pereira, PharmD, BCPS**
Associate Professor
University of Minnesota
Saint Paul, MN

**James Ray, PharmD, CPE**
Clinical Associate Professor
University of Iowa College of Pharmacy
Iowa City, IA

**Lynn Kassel, PharmD, BCPS**
Assistant Professor of Clinical Sciences
Drake University College of Pharmacy & Health Sciences
Des Moines, IA
Expo Friday will feature clinically intense and practical medication management education that will challenge pharmacists in any practice setting. These sessions are divided into 15-minute segments for rapid-fire information, distilled down to the most important points!

1:15-3:15pm

**Chronic Care Management: Focus on Anticoagulation**

UAN: 0107-9999-20-029-L01-P | 0.2 CEU/2.0 hr

This course will provide a clinically-intensive review of anticoagulation with an emphasis on the role of direct acting anticoagulants (DOACs) in patients with oncology or cardiovascular disease as well as when to consider extended therapy. Hear tips on how to establish a DOAC monitoring service at your practice setting. Come prepared to be challenged by discussion on complex scenarios that will provide the tools you need to promote optimal patient care.

**Andrew Miesner, PharmD, BCPS**
Associate Professor of Pharmacy Practice
Drake University College of Pharmacy & Health Sciences
Des Moines, IA

**Tadd Hellwig, PharmD, BCPS, FASHP**
Professor/Clinical Pharmacist
South Dakota State College of Pharmacy and Allied Health Professions/Sanford USD Medical Center
Sioux Falls, SD

**Sara Wiedenfeld, PharmD, BCPS**
Clinical Assistant Professor
University of Iowa College of Pharmacy
Sioux City, IA

3:45-5:00pm

**Medication Misconceptions II**

UAN: 0107-9999-20-036-L01-P | 0.125 CEU/1.25 hr

This course offers brief presentations on topics where recent practice has changed or study findings have challenged what was once considered “standard of care”. Learn how low you can safely go with LDL levels and more in these short, practical presentations.

**Emily Van Klompenburg, PharmD, BCACP**
Assistant Professor of Pharmacy Practice
South Dakota State University College of Pharmacy and Allied Health Professions
Sioux Falls, SD

**Zachary Pape, PharmD, BCACP**
Assistant Professor of Clinical Sciences
Medical College of Wisconsin School of Pharmacy
Milwaukee, WI

**Emily Neddermeyer, PharmD, BCACP**
Clinical Pharmacy Specialist, Neurology
University of Iowa Health Care
Iowa City, IA

**Anna Pedersen, PharmD, AAHIP**
Clinical Pharmacist
Park Nicollet
St. Louis Park, MN
52% of workers say they’re least likely to get along with someone from another generation. And 62% of Generation Z (the generation after Millennials) anticipate challenges working with Baby Boomers and Generation X. A generationally diverse workforce is better equipped to respond to today’s high-flux and disruption-prone marketplace. Since Millennials and Generation Z became a majority of the labor force, generational differences have never been wider as each generation has a varying perspective of work, leadership, communication, and much more. This course offers strategies to close the generational gap and tools to help you work and communicate across generations.

Ryan Jenkins
Ryan-Jenkins.com

For over 7 years, he has been helping organizations gain clarity around Millennials and Generation Z so that leaders can effectively work across generations and lead, engage, and sell in today’s multi-generational marketplace.

Ryan has been featured in Forbes, Fast Company, Inc, and SUCCESS Magazine.

Ryan’s blog, podcast, and Inc.com column inspire and equip thousands of people every week. Ryan’s fresh and forward-thinking approach to generations have made him one of the most highly sought after generational and future of work keynote speakers.

Ryan is also a Partner at 21Mill.com, a digital training platform that helps Millennials and Generation Z succeed at work.

When he is not speaking and writing, you can find him sampling craft beers from around the U.S. or ring-leading with his wife the circus that is their 3 children and yellow labrador in their home in Atlanta, GA.
Innovative Practice

Drug Allergy Evaluation
9:45 - 10:45am

Drug allergies can limit available treatment options, lead to suboptimal therapies and cause frustration for both the clinician and patient. This course offers guidance on identifying and evaluating a true drug allergy versus an adverse reaction. Gain practical knowledge on how to approach the most frequent drug allergies seen in practice.

Deanna McDanel, PharmD, BCPS, BCACP
Clinical Pharmacy Specialist/Clinical Associate Professor
University of Iowa Hospitals & Clinics
Coralville, IA

11:00am - 12:00pm Technician Product Verification: A Hands-on Exercise in Continuous Quality Improvement

Let’s explore technician product verification! In this course, we will describe TPV and what’s happening across the nation, learn about medication errors and near misses, explore continuous quality improvement, and participate in a hands-on simulation.

Heidi Eukel, PharmD
Associate Professor
North Dakota State University
West Fargo, ND

Unique Billing Opportunities for Your Practice
2:00 - 3:00pm

Revenue sources for clinical pharmacy services continue to be an obstacle for pharmacists. This course will discuss pharmacist billing opportunities including Medicare annual wellness visits, chronic care management, transitional care management and anticoagulation management. Leave this course with more confidence in knowing what codes exist and when to use them in your practice.

Sara Wiedenfeld, PharmD, BCPS
Clinical Assistant Professor
University of Iowa College of Pharmacy
Sioux City, IA

HIV Pre-exposure Prophylaxis: An Overview
3:15 - 4:15pm

The course will provide an overview of HIV Pre-Exposure Prophylaxis (PrEP). Hear experiences and insights in implementing two PrEP services - clinic-based and telemedicine - focusing on LGBTQ and rural populations in Iowa.

Angela Hoth, PharmD, MPH
TelePREP Program Manager
University of Iowa/Iowa Department of Public Health
Iowa City, IA

Pharmacist to Pharmacist Collaboration
4:30 - 5:30pm

The importance of pharmacist to pharmacist collaboration across health care settings has never been more important as patients transition throughout the health care system. This course will highlight an example of collaboration between community pharmacists and clinic based pharmacists. Lessons learned and opportunities to enhance patient care will be discussed.

Matt Osterhaus, RPh, BSPharm
President
Osterhaus Pharmacy
Maquoketa, IA

Ryan Jacobsen, PharmD, BCPS
Clinical Pharmacy Specialist/Clinical Associate Professor
University of Iowa Hospitals and Clinics/University of Iowa College of Pharmacy
Iowa City, IA

Randy P. McDonough, PharmD, MS, CGP, BCPS, FAPhA
Co-Owner and Director of Clinical Services
Towncrest, Solon Towncrest, and Towncrest Compounding Pharmacies
Iowa City, IA
Pharmacists often encounter clinical scenarios without a definitive answer where determining the best course of treatment is challenging. This course will present clinical cases and provide a review of the literature in these situations. Leave this interactive session with a better understanding of the evidence and more confidence in your recommendations for future patient encounters.

Tadd Hellwig, PharmD, BCPS, FASHP
Professor/Clinical Pharmacist
South Dakota State College of Pharmacy and Allied Health Professions/Sanford USD Medical Center
Sioux Falls, SD

11:00am - 12:00pm Okay, now what? Challenges in Internal Medicine

In recent years, the treatment of migraines has evolved with approval of the first medication class specific to migraines, the Calcitonin Gene-Related Peptide (CGRP) inhibitors. Previously, clinicians were limited to borrowing medications from other indications, such as antidepressants and antihypertensives, to treat patients with migraines. This course provides a case-based approach to discuss the role of the CGRP inhibitors in the context of migraine management, as well as other strategies for migraine prevention and treatment.

Natalie Roy, PharmD
MTM Pharmacist
MHealth Fairview
Minneapolis, MN

2:00 - 3:00pm Case Closed: Migraine Treatment Updates

In recent years, the treatment of migraines has evolved with approval of the first medication class specific to migraines, the Calcitonin Gene-Related Peptide (CGRP) inhibitors. Previously, clinicians were limited to borrowing medications from other indications, such as antidepressants and antihypertensives, to treat patients with migraines. This course provides a case-based approach to discuss the role of the CGRP inhibitors in the context of migraine management, as well as other strategies for migraine prevention and treatment.

Jordan Wolf, PharmD, BCgP
LTC Consultant Pharmacist
Thrifty White Pharmacy
Stillwater, MN

3:15 - 4:15pm Geriatric Cases: Clinical Application of the 2019 Beers Criteria

The American Geriatric Society’s Beers Criteria is a tool available to pharmacists that helps to identify potentially inappropriate medication use in older adults. The most recent update to the Beers criteria was published in The Journal of the American Geriatrics Society in 2019. Using a case-based approach, this course will highlight some of the key changes made in the 2019 updates to the Beers Criteria and will guide attendees in the application of this particular criteria in their clinical practices.

Jordan Wolf, PharmD, BCgP
LTC Consultant Pharmacist
Thrifty White Pharmacy
Stillwater, MN

4:30 - 5:30pm On the Case: Updates in Respiratory Medicine

Recent updates to the 2019 GINA asthma guidelines and the 2019 GOLD COPD guidelines have affected how patients with these conditions are treated. This course will review how to apply new guideline recommendations to clinical cases.

Ashley Crowl, PharmD, BCACP
Clinical Assistant Professor
University of Kansas School of Pharmacy
Kansas City, MO
Essential oils are everywhere these days, but the information online is confusing and of widely varying quality. This leaves pharmacists and other healthcare providers unable to answer questions from patients about everything from safety and efficacy to kinetics, drug and disease interactions, and dosing. This course will cut through the misinformation online and discuss key points about essential oils that healthcare professionals need to know to educate patients in their practices.

Lindsey Elmore, PharmD, BCPS
Owner and Chief Operating Officer
Lindsey Kay Elmore Wellness
New York, NY

9:45 - 10:45am Essential Oils: What Every Healthcare Professional Needs to Know
UAN: 0107-9999-20-010-L01-P • 0107-9999-20-010-L01-T | 0.1 CEU/1.0 hr

Do you feel confident on when to recommend supplements like probiotics and vitamin D to your patients? This course will briefly overview the impact of nutrient deficiencies on health and discuss the role of inflammation and the microbiome on the development of chronic disease. Leave this course with tools to help you recommend core supplements to improve the microbiome, decrease inflammation, and address nutrient-specific deficiencies.

Melody Hartzler, PharmD, BCACP, BC-ADM
Clinical Pharmacist, Western Medicine Family Physicians; CEO, PharmToTable, LLC; Director of Patient Care Services, Profero Team, LLC; Associate Professor of Pharmacy Practice, Cedarville University School of Pharmacy
Cedarville, OH

11:00am - 12:00pm Recommending Supplements: Yes or No?
UAN: 0107-9999-20-012-L01-P • 0107-9999-20-012-L01-T | 0.1 CEU/1.0 hr

This course will dive into the nutritional guidelines for the general population and look into what is on the nutrition label. This course will also discuss different fad diets that your patients may be trying and what that means for their health.

Jen Ransom, MPH, RD, LD
Nutrition Grant Specialist
Des Moines Public Schools
Indianola, IA

2:00 - 3:00pm What's New in Nutrition? The Impact of Diet Fads and Label Changes on Patient Counseling
UAN: 0107-9999-20-021-L01-P • 0107-9999-20-021-L01-T | 0.1 CEU/1.0 hr

We all strive to give and serve others, but if we don’t take care of ourselves first, we’ll have nothing left to give! In healthcare, we strive every day to improve the lives of those that we serve. Sometimes we can care so deeply and give so much, that we do so at the sacrifice of our own health. In this course, I will empower YOU to put your health back into healthcare through managing stress, fitting in fitness, and nailing your nutrition as a member of the pharmacy team.

Adam Martin, PharmD, ACSM-CPT, NAMS-CNC
Pharmacist, Nutrition Consultant, Author, NSA Professional Speaker
The Fit Pharmacist, LLC
Wexford, PA

3:15 - 4:15pm Self-Care = Healthcare: The Most Important Formula you Will Ever Learn
UAN: 0107-9999-20-034-L04-P • 0107-9999-20-034-L04-T | 0.1 CEU/1.0 hr

Most states now have some form of medical cannabis legislation, but many medical professionals are still wondering if it is effective and safe for the purported medical uses. This is further complicated by a farm bill that will make industrial production of hemp legal. The market is already flooded with hemp oil products, but are these legally on the shelf and in consumer hands? This course will address these complex issues.

Ron Herman, PhD, RPh
Clinical Professor
University of Iowa College of Pharmacy
Iowa City, IA

3:30 - 4:30pm THC, CBD and now Hemp Oil: Do they work? Are they safe? What’s available legally?
UAN: 0107-9999-20-028-L01-P • 0107-9999-20-028-L01-T | 0.1 CEU/1.0 hr
How do you maximize your energy, find greater balance and make an impact in this world? By being intentional with your development! This course offers tips for building your personal power by taking control of your development and creating life balance by focusing on both professional AND personal development. Leave this course with a plan to set your goals for maximum impact – 31 Days at a Time.

Dorene Macvey, Certified Professional Coach
CEO/Head Coach
ithrive31, LLC: A Coaching and Professional Development Company
Polk City, IA

Have you ever thought about your philosophy of practice and its impact on your work? This course will cover the meaning and application of philosophy of practice to pharmacy. The main tenets of pharmacy’s philosophy of practice will be discussed as well as whether or not pharmacy should adopt a consistent philosophy of practice. Participants will be given the opportunity to reflect on their own philosophy of practice.

Deborah Pestka, PharmD, PhD
Research Scientist
University of Minnesota - Twin Cities
Minneapolis, MN

This course will explore the current landscape of rural healthcare in the United States as well as opportunities for rural practice pharmacists to collaborate as members of the interprofessional team. Join us to explore educational competencies for aspiring rural pharmacy practitioners and how they translated to development of a rural pharmacy practice program at the University of Wisconsin-Madison School of Pharmacy.

Ed Portillo, PharmD
Assistant Professor
University of Wisconsin-Madison School of Pharmacy
Verona, WI

Teamwork in healthcare has been suggested as a mechanism to decrease burnout and increase joy in work. This course will share examples from the literature of the way that working in a team impacts joy in work. Following these examples, hear an in-depth discussion of recent findings that shed light on the way pharmacists can improve primary care providers’ work-life through comprehensive medication management.

Kylee Funk, PharmD, BCPS
Assistant Professor
University of Minnesota College of Pharmacy
Minneapolis, MN

Have you ever been frustrated that a patient doesn’t follow treatment plans or makes choices that negatively impact health? This course offers tips on how to stop the blame game by gaining a better understanding of how social determinants of health influence patient decision making. Discover how this understanding helps you better serve your patients and assist them in reaching their health goals.

Cheryl Clarke, EdD, BPharm, FAPhA
Assistant Dean for Clinical Affairs/Associate Professor of Pharmacy Practice
Drake University College of Pharmacy and Health Sciences
Waukee, IA
The Political Leadership Reception is an opportunity for pharmacists to hear from a leader in national government and discuss issues that are important to the pharmacy profession.

This event serves as a fundraiser to state pharmacy political action funds and, as such, requires a separate ticket purchase in addition to your registration. This year’s speaker will be announced in January.

Light appetizers will be served.

LUNCH & EXHIBIT HALL
Saturday, Feb. 8 | 12:00-2:00 pm

Enjoy lunch as you walk through the Midwest Pharmacy Expo Exhibit Hall. Over 40 vendors will be on hand, ready to discuss the latest products, services and technology in the industry. In addition to browsing through the exhibits, this is a great opportunity to network with colleagues from all over the Midwest. Lunch is provided.

INDUSTRY SYMPOSIUM BREAKFASTS

Saturday, Feb. 8 | 7:00-8:00 am
Advanced Technician Panel (Pharmacy Technicians only)
Sponsored by PTCB

Invokana-The First Therapy in 20 Years to Treat Diabetic Nephropathy in Patients with T2D (Open to all)
Sponsored by Janssen

Industry symposium breakfasts are the only breakfast options provided and they are free to registered attendees. Sunday’s industry symposium presenters will be announced at a later date. Because industry symposiums may concentrate on specific products and drugs, they are not eligible for CPE credit.

Sunday, Feb. 9 | 6:45-7:45 am
Presenters TBD

Industry Symposiums doors will close 15 minutes after start

EXPO FOOD DRIVE

Enter into a drawing for prizes with each non-perishable food item donated!

Pharm to Tables is a charitable organization uniting pharmacy professionals in a singular, focused mission of helping to end the hunger crisis and improve health in our local communities. Please join us in our mission by bringing non-perishable food items to the Midwest Pharmacy Expo! All donations will benefit a local meal program or food pantry.
This activity will review medications that were recently approved by
the FDA and will include a discussion of indications, contraindications,
common adverse effects, dosing, and administration. A “bottom line”
summary will be provided for each drug that will highlight where the
drug fits into practice and any limitations to the implementation in clinical
practice.

Drug shortages pose a significant challenge for healthcare providers
affecting pharmacy practice settings of all types and adversely affecting
patient care. How did we get here and what solutions seem most promising
to fix the problem? Attend this course to identify strategies for navigating
this difficult problem.

An annual favorite, this activity highlights the Top Ten potential changes
to “boots on the ground” pharmacists seen over the last year. Led by
committee chair Geoff Wall, this session aims to create awareness of
trends, laws, pharmacotherapy or medical practice changes that can
significantly impact pharmacy practices.
Download the Expo App

The Midwest Pharmacy Expo app is available for free in the Apple Store and Google Play (Android) and provides quick access to session handouts, speaker bios, full CPE information, and more. Plus, you can share your experience.

To Download:

Download the Attendify app from your device’s app store. Open the Attendify app and search “Midwest Pharmacy Expo”

rates subject to state/local tax
REGISTRATION

Registration includes CPE credit, access to all handouts (on website and meeting app) and lunch at the Clinically Intensive Workshops on Friday and the Exhibit Hall on Saturday (food and beverages are not included in breaks). See the registration form for fees.

IMPORTANT DATES
January 23, 2020
Early registration period ends

February 3, 2020
Online registration closes at 11:59 p.m.

To register on February 4-7, contact the Iowa Pharmacy Association at 515-270-0713. After February 7, registration is only available at the door.

ADDITIONAL INFORMATION
Cancellation & Refund Policy
All participants are encouraged to register in advance. The refund policy is full refund less a $25 administrative fee up to January 24, 2020, 50% less refund registration fee after January 23, 2020, and no refund after February 3, 2020.

Ticketed Events
The Political Leadership Reception (Saturday evening) is not included with registration and requires a separate ticket purchase. Ticket(s) can be purchased during registration.

Industry Symposium Breakfasts
Industry symposiums are sponsored programming available to all registered attendees and are the only breakfast options included with registration.

CONTINUING PHARMACY EDUCATION (CPE) INFORMATION

CEI is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. Full CPE information can be found at www.midwestpharmacyexpo.com. Participants will receive CPE codes for the courses they attend and will be required to complete an online exam and evaluation on CEImpact’s LMS by March 9, 2020. Once the exam and evaluation are successfully completed, participants can access their CPE Statement of Credit at www.MyCPEMonitor.net.

TARGET AUDIENCE
Pharmacists, pharmacy technicians, and student pharmacists. Please refer to the individual continuing pharmacy education (CPE) descriptions and learning objectives (found at www.midwestpharmacyexpo.com) for applicability to your continuing professional development (CPD) plan.

CPE HOURS AVAILABLE
FRIDAY, February 7, 2020
Pharmacists: 0.65 CEUs/6.5 Hrs

SATURDAY, February 8, 2020
Pharmacists & Technicians: 0.6 CEUs/6.0 Hrs

SUNDAY, February 9, 2020
Pharmacists & Technicians: 0.4 CEUs/4.0 Hrs

PHARMACY TECHNICIAN CPE
Please note that CPE credit for pharmacy technicians is designated with a T at the end of the UAN.

STUDENT PHARMACISTS
Student pharmacists are invited to attend all sessions, including their choice of the CPE breakout sessions throughout the weekend.

HANDOUTS
CPE handouts will be available prior to the conference at www.midwestpharmacyexpo.com and on the meeting app.

CONCURRENT SESSIONS
Concurrent CPE will be held on Saturday. When completing the registration form, please be sure to select only one option per time slot where applicable.

ACPE UNIVERSAL Activity NUMBERS (UAN) KEY

01 = Drug Therapy
02 = HIV/AIDS
03 = Pharmacy Law
